A Mistake. ocrats that we have no Job Office connected with the SEN-TINEL office. This is a mistake. There is no office in the city that is so well prepared to do all kinds of BOOK AND JOB PRINTING as we are (except large bill posters), and we will feel under obligations to all Democrats, not only in the city, but in the State, for any work they can send to our office. We have ro public patronage to depend on to aid the paper-we ask the party to aid us with their work, as far as they can. We can do as good work, great printe was to have a healthy regimen, and and on as good terms, as any other office.

# STATUTES OF INDIANA.

GAVIN & HORD'S REVISION.

The second volume of Means. Gevin & Hord's engages tion of Indiana Ste uses has just appeared. This volume complete- their work. Its mechanical execution to ver creditable; and the skill, learning, and labor which the editors have bestowed on it, merit the high at praise. None but learned, diligent lawyers could have produced

such a work. The second volume embraces all the public statutes of Indiana now in force upon the subjects to which it relates, and the first all excepting the acts of the last regular and extra sections of the Legislature. If is a great excellence of the compilation that all existing statutes on each subject are collected together in the same place in these volumes; so that t e reader can see at a glance all the legislation in force on any given subject. Take, for example, the act of 1852, organizing Courts of Common Pleas-the editors publish the act at large, and they also print, in the form of notes on the same page- containing this starute, all the acts amendatory to it which have been passed up to this time. And so they have done of all the other acts contained in the revision of 1852.

The editors have added much to the value of these velumes-especially the last-by the copious and learned notes with which the volumes abound. These notes indicate much labor and legal scumen. They furnish us, in & concise and accurate form, with all the ad udications of our Supreme Court on these statutes. These adjudications being now very numerous, the references to them in the volumes under c usideration, will be of great value to the lawyer, and indeed to all persons concerned in the administra ion of justice. The edit is have also referred, in their notes, to numerous decisions in other States,

made on statutes similar to ours. An excellence of these volumes, not to be overlooked is the full and accurate index appended to each. In Indiana, there never has been a good index to any volumes of statutes published by authority. This provoking defect has been completely remedied in the volumes under review; and these indexes will greatly lighten the labor of

all who have occasion to look into our statutes. This is the first time that private enterprize has attempted the publication of Indiana statutes. The attempt, I do not don't, will be successful, and will duly reward the learned editors and enterprizing publishers. Every lawyer will, of course, purchase these volumes; and every clerk, sheriff, and justice of the peace of the State, will find it to his advantage to own them.

mendation of the ability, accuracy, and completeness with whi h these volumes have been prepared The second volume, which has just been issued from the press, is being delivered to subscribers as rapidly as possible. This edition of the statutes will be found a necessity to every lawyer, ju-tices of the peace, and county officers in the State. The public tion of the work is a private enterprize, and the publishers' only hope for remaneration is in its sale to those for whose convenience it was prepared. The two volumes contain about 1600 pages of matter, nearly double the quantity embraced in

the revision of 1852. The price of the work is \$4 50 per volume, or \$7 00 for the two volumes. Orders addressed to the subscriber will J. J. BINGBAM. receive prompt attention.
